

PLAY THERAPY TRAINING: THEORIES, SKILLS, AND A PPLICATIONS

Presented by Dr. Mary Rottier
Register at pawsforhealing.com Cost \$300
July 6-7 from 8-2pm

DESCRIPTION

This training will cover fundamental knowledge of play and play therapy. Participants will learn the significance of play in childhood development. They will explore the development of play therapy and will identify the therapeutic powers of play. An overview of historically significant theories will be identified and reviewed. Participants will explore the basic theoretical and ethical foundations of play therapy, and will gain practical skills and strategies to work with children.

OBJECTIVES

1. Describe the role of the play therapist
2. Identify several fundamental play therapy theories
3. Assess ethical considerations related to the practice of play therapy
4. Identify the stages of play and trajectory of play therapy
5. identify a variety of play therapy techniques
6. Analyze a variety of play therapy modalities (sandtray, art, puppet play, animal assisted interventions, directed play)
7. List the components of a rich and diverse play therapy room
8. Describe how to set limits and handle the unexpected in the play therapy room
